

How to Use this Game:

Laminate sheet 1 and cut out all the numbers. Put into a little bag.

Either laminate 2 copies of sheet 2, (to use with a felt-pen which can then be wiped off after the game), or print off and pencil directly onto the sheet.

# Find those numbers!

10	1	6	5	9	7
6	3	2	8	4	2
4	10	5	3	1	8
10	4	7	1	5	9
5	6	3	1	7	2
3	9	6	4	8	2

## How to Play:

Each player takes it in turns to pull a number token from the bag, then cross off that number on their grid. The number token goes back in the bag after each turn. The winner is the first person to cross off, eg 4 in a row.
